Reporting Program Assessment Activities in Activity Insight for Faculty Annual Review

Beginning in 2018, updates to WSU's faculty manual provide recognition for faculty participation in assessment in the annual review process as part of Teaching or Service accomplishments, depending on the activity.

Now, in 2020, the faculty annual review software, known as Activity Insight, has also been updated to reflect these changes. The current iteration of Activity Insight now includes drop-down menus and built-in prompts for assessment activities in the Teaching/Mentoring section.

ATL's latest blog post provides an assessment-focused overview of Activity Insight's Reference Guide, to assist as faculty and assessment coordinators successfully report assessment activities in Activity Insight.
