Achieving WSU’s Seven Learning Goals of Undergraduate Education

All undergraduates, regardless of major, are expected to achieve WSU’s Seven Learning Goals of Undergraduate Education. Identified by faculty as core skills and knowledge necessary for the academic success that leads to career, personal, and civic competencies, the Seven Learning Goals frame general education, study in the major, and co-curricular experiences.

WSU Graduates Demonstrate:
1. Critical and Creative Thinking
2. Information Literacy
3. Communication
4. Quantitative Reasoning
5. Scientific Literacy
6. Diversity
7. Depth, Breadth, and Integration of Learning

Note: This visual is conceptual and not intended to convey proportionality of credit hours or time commitment. Specific requirements will vary and are defined in the WSU Catalog. Students may also pursue additional majors, minors, and/or certificates.

Co-Curricular Learning Experiences
Co-curricular experiences develop knowledge, skills, and abilities applicable to education, career and civic participation. Students may demonstrate some of WSU’s Seven Learning Goals through co-curricular activities and outcomes.
